The Faculty Council on Faculty Affairs has completed the first phase of our review of the recommendations contained in the Report of the Task Force on Adjudication Matters. I am enclosing the minutes of the Council's February 24 and March 2 meetings which contain the complete summary of the Council's discussion on the proposed recommendations by the Task Force. Please note that the Council also has recommended to the Faculty Senate two additional amendments to revise the Faculty Code which are relevant to the adjudication process.

Prior to our meetings on February 24 and March 2, the Council held several meetings that were primarily devoted to presentations by members of the University community knowledgeable about the adjudication process. If you would like copies of the minutes of those meetings, please contact Ms. Katie Murray in the Faculty Senate Office. (3-2743).
